RE: WT Docket No. 11-65. In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for consent to assign or Transfer Control of licenses and Authorizations.

Dear Chairman Genachowski and Commissioners:

Miami Overseas Chinese Association embraces expanded investment in improving voice and data wireless broadband as one of those issues that directly impacts the desire and ability of businesses to locate and successfully grow in Florida. We applaud AT&T's continued efforts to make additional network infrastructure investment.

AT&T has one of the finest supplier diversity programs in all of business. The acquisition of T-Mobile USA will promote the expansion of the supplier diversity program to be expanded to accommodate the needs of this great and growing company here in America. Building off AT&T, Inc.'s commitment to supplier diversity, the acquisition T-Mobile USA's will result in supplier needs also being under the AT&T program, which has provided opportunity for businesses and suppliers owned by Asians, African-Americans, and Latinos, among others.

Furthermore, this agreement will positively affect investment and economic development, as these two companies together will share a technologically compatible network offering fast and efficient solutions that meets consumer demand for wireless broadband, better service, and helps drive economic growth resulting from increased investment in advance of technology and in wireless broadband networks.

Supplier diversity, investment, and economic development would all be tremendously enhanced by this acquisition. For these reasons, Miami Overseas Chinese Association urges your approval of this transaction and actively anticipates the opportunities its approval will bring.

Sincerely,

Joe Chi
President
